LinkedIn: f-fousiya-fathima | GitHub: FousiyaFathima

PROFESSIONAL SUMMARY

Detail-oriented BCA final-year student with a strong foundation in SQL, Python, and data-driven thinking. Experienced in designing databases and extracting meaningful insights from structured data. Passionate about transforming raw data into actionable information through analysis, visualisation, and reporting. Seeking an entry-level Data Analytics role to apply technical skills and drive informed decisions.

TECHNICAL SKILLS

Analytics: SQL (MySQL, PostgreSQL), Python, MS Excel (Pivot Tables, Charts, VLOOKUP), Data Analysis, Data Modeling, Data Visualization

Programming: Python, Java, C, JavaScript

Database: Database Design, Query Optimisation, Relational Schemas, MySQL, PostgreSQL

Web Development: HTML5, CSS3, JavaScript, PHP, Web Security

Tools & Platforms: GitHub, NetBeans, MS Excel, Spreadsheet Skills

Core Concepts: Data Structures & Algorithms, Digital Systems, Operating Systems, Formal Communication, Planning, Problem-Solving

EDUCATION

Bachelor of Computer Applications (BCA) — Computer Science, Mathematics & Accounting Stella Maris College, Chennai | Jun 2024 - Apr 2027

CGPA: 8.6 / 10 (up to 4th Semester)

PROJECTS

Online Book Store – Database & Backend

MySQL • PHP • SQL • HTML5 • CSS3 • JavaScript

- Designed a fully normalised relational database schema managing books, users, orders, and inventory with optimised table structures.
- Wrote complex SQL queries for product search, filtering, and sales reporting with JOIN operations and aggregate functions.
- Implemented secure data handling with parameterised queries to prevent SQL injection vulnerabilities and protect user data.
- Analysed query performance and applied indexing strategies for faster data retrieval, reducing query execution time.

Soap Business Website – Data & Analytics Layer

HTML5 • CSS3 • JavaScript • Frontend Data Integration

- Structured product and customer data models for easy reporting and future analytics integration.
- Implemented front-end data capture forms with validation feeding into a scalable back-end data pipeline.

- Designed user experience with focus on data accuracy, user input validation, and responsive interface design.

CERTIFICATIONS & JOB SIMULATIONS

Deloitte Australia - Data Analytics Job Simulation — Forage *Issued: May 2026 | Credential ID: HarMfa32mkeuB4jhh*

Tata - Data Visualisation: Empowering Business with Effective Insights — Forage *Issued: April 2026 | Credential ID: SuDkFejs55yABrPYz*

- Skills Gained From Both : Computer Networking, Data Analysis, Data Modeling, Data Structures, Data Visualization Tools, Formal Communication, Log Analysis, Planning, Programming

Typewriting (English) – Junior Grade *Issued: 2023*

Professional typewriting certification demonstrating proficiency in English language typing standards.

ADDITIONAL SKILLS

Data Skills: Data Entry, Data Analysis, Business Analysis, Research Skills

Soft Skills: Quick Learner, Problem-Solving, Attention to Detail, Analytical Thinking, Data Storytelling, Communication, Team Collaboration

CORE STRENGTHS

Analytical Thinking • Attention to Detail • Problem-Solving • Quick Learner • Data Storytelling • Meticulous • Proactive

CAREER OBJECTIVE

Seeking an entry-level Data Analytics position where I can leverage my technical expertise in SQL, Python, and data visualization to drive data-informed decision making. Eager to contribute to meaningful projects while continuously learning and growing in a dynamic team environment.
